Winter Kale & Pomegranate Salad

Recipe Courtesy of A Tasty Love Story website

Salad mix:

10-12 big leaves of kale
(250-300 g)

1 pomegranate

2 apples

3/4 cup almonds
(100 g)

2 Tbsp red wine balsamic

1 Tbsp honey

Dressing:

3 Tbsp red wine balsamic
or a cherry vinegar

3 Tbsp olive oil

1 tsp honey

1 tsp dijon mustard

Salt & pepper

Instructions

1. Heat a pan and dry roast the almonds for 1-2 minutes. Add the balsamic and as soon as it is gone add the honey and stir for 1 minute. Transfer almonds to a baking sheet and let them cool.

Afterwards chop them coarsely.

2. Wash and dry the kale. Remove the stems and use a food processor or mini chopper to chop the kale into a very fine texture. You can also use a sharp knife.

3. Prepare the pomegranate and cut the apple into thin boats and mix all of it with the kale.

4. Make the dressing by stirring everything thoroughly together and season to taste (The balsamic can vary a bit in sweetness and flavor so make sure you adjust the amount you use according to your own balsamic).

5. Stir everything together and serve. This salad is great the next day and even the day after that.

Enjoy....and have a Happy New Year!

Let's Get Crafty

RAINDROP PAINTING

Supplies you will need:

- A rainy day!
- Heavy white paper
- Powdered tempera paint (various colors) OR hard watercolor paint that you can break apart into little pieces.

- Shaker bottles (old spice shakers, salt shakers, or used empty glitter shakers with the shake top in place)
- It's a good idea to have smocks or some other slip on garment to help protect clothes.

Directions:

1. Lay out newspaper on a flat surface such as your back counter or table.
2. Have different colors of powdered paint set out in the shaker containers. (Or, break apart dry watercolor cakes by placing them in plastic baggies and hitting them with a rolling pin).
3. Give each person a piece of the paper.
4. Gently shake a color of your choice onto the plain paper. Sprinkle it randomly around your paper using a light hand with the color.
5. Choose another color or two and repeat step 4.
6. Have some plastic such as large trash bags or old vinyl table cloth to lay on the ground outside in the rain. Lay the pictures paint face up in the rain on the plastic.
7. Depending on how hard it is raining, let the pictures stay out in the rain till desired effect is achieved.
8. The raindrops will pitter-pat on the dry paint and will create designs when the water and paint mix.
9. Bring in painting to dry flat over night. When dry, spray with some hairspray before putting on bulletin board to help keep paint adhered.
